

GEMINI THERMO CLASSIC

wood-aluminium windows

Gemini Thermo Classic is a system used in buildings that have to meet thermal and acoustic requirements. Similarly to GEMINI Classic, this system can be used in a variety of door and window constructions. Thermo system profiles can be ordered as welded or punched frames.

THERMAL PERFECTION

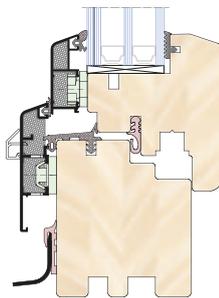

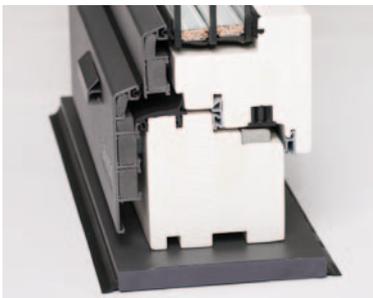

Filling the profile chambers with insulating material results in higher thermal parameters along with a positive isothermal shift.

AVAILABLE THERMO SYSTEMS:

- Gemini Thermo Soft Line
- Gemini Thermo Linear
- Gemini Thermo Quadrat
- Gemini Thermo Quadrat FB
- Gemini Thermo Retro
